

LIFT Initiative: Halo Image and In-Store Loan Program

# CONSOLIDATED CONSTRUCTION

**We know you'd rather be building your business.**

**Spending your time bogged down in the details of a renovation or new building takes you away from building your business.**

**We can help.**

We've consolidated architecture and construction into one streamlined solution for you. We'd love to show you how this saves you time and money, and allows you to keep running your business.

90% of project success is determined before construction even begins, so our experts carefully develop your design, schedule, and budget first. We consider your operations and customer safety, and plan the work so you can continue to operate your business with minimal disruption, no surprises, and an on-time grand opening.

## **PARTICIPANTS CAN SAVE 15% OFF PRELIMINARY DESIGN SERVICES.**

With four Midwest offices, we bring value to Cenex® stores looking to build or renovate—including those in rural areas. And we support your community by using local subcontractors whenever possible.

For support throughout the entire building process—including architecture, construction, and service—call Consolidated Construction.

\* Additional national discounts on high-volume purchases may apply to certain projects. Discount does not apply to Construction Documents or any external consultant charges.

# ST. CLOUD REFRIGERATION

SCR can help you design an efficient and functional space that raises the quality of consumer interactions while creating higher volumes and increased profits.

With decades of experience, SCR offers resources and capabilities for any size project, for any size company, in markets throughout Minnesota and across the Midwest.

## Equipment Solutions

- Specification and selection
- Equipment for cooking, food prep, and serving
- Specialty refrigeration and display
- Retail refrigeration and glass door packages
- Walk-in coolers and freezers
- Custom millwork and cabinetry
- Display fixtures and shelving
- Custom stainless steel (NSF International certified)
- Exhaust hood systems with make-up air
- Installation, service, and sales

## Fitting Customer Needs

Our team will work within project parameters and determine the best solution and resources for the space and your budget.

Throughout the project, we'll offer construction assistance and expert guidance. The goal is a finished product that is on time, on budget, and meets or exceeds your expectations. No detail of design, placement, or operation is overlooked. The result is an appealing, functional, and efficient space.

- Interior layout and space planning
- Mechanical and electrical coordination
- Traffic flow and functionality
- In-house AutoCAD design

## Creating Efficient Spaces

From the moment you contact SCR to discuss your project needs, we partner with you to determine the most cost-effective, energy-efficient solutions.

- LED lighting retrofits
- Dew point control systems
- Humidity management
- Night curtains
- Heat reclaim
- Control packages
- Variable Frequency Drives (VFD)

**PARTICIPANTS CAN RECEIVE  
UP TO A 2% DISCOUNT OFF PROPOSAL.**

# TRIPLE C TECHNOLOGIES

## Triple C Technologies creates the finishing touches that make a new or remodeled convenience store great.

From the overall layout all the way down to custom designed cabinets, Triple C creates seamless customer flow patterns that help increase sales and make all the difference in a busy store. With an in-house acrylic fabrication shop, Triple C is focused on customization and quality above all else. Triple C works with each store to pick equipment best suited to that store's individual needs. No cookie cutter solutions here. With over thirty years of experience, Triple C has satisfied customers all though out the Midwest.

### Offerings

- Custom cashier and food service cabinetry that is unmatched in quality
- Walk-in coolers, freezers and beer caves with custom LED lit signage to match
- Kitchen and deli equipment that is right for your business
- Long lasting and tasteful seating
- Retail shelving with a focus on customer flow patterns
- In-store signage, fully customized
- LED Lighting retrofits through their partner US LED, with an unmatched 10 year lighting warranty
